

STOPAIN® CLINICAL
PAIN RELIEVING PRODUCTS!

Our advanced formulas, brought to you by Troy Healthcare, LLC, work on contact to provide fast, long-lasting pain relief of sprains, strains, bruises, arthritis, muscle aches, joint & back pain.

MAXIMUM PERFORMANCE PAIN RELIEF

CLINICAL

Troy Healthcare, LLC owns and manufactures Stopain® Clinical, giving us 100% complete control from concept to market, ensuring the highest product quality. All of our company's research, quality, and business practices are managed according to FDA guidelines. For 20 years, we have been manufacturing topical analgesics in the USA at our Pennsylvania based facility.

CLINICAL

Stopain® Clinical is ONLY available for sale by Healthcare Professionals.

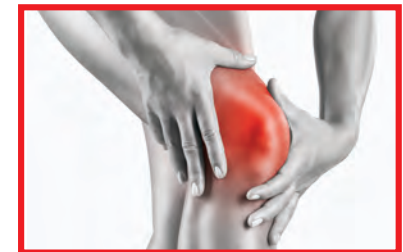

This product line is not available for sale in any retail market. Larger sizes are ideal for chiropractors, podiatrists, athletic trainers, and physical, massage, and occupational therapists as well as other healthcare practitioners. Smaller sizes – available in gel, spray and roll-on applications - are ideal for clients to bring home after treatments.

- Advanced formulas contain 10% active menthol with MSM & glucosamine. Every ingredient in Stopain® Clinical was selected with the purpose of developing the most innovative and effective topical analgesic.
- Penetration enhancers provide fast pain relief.
- Stopain® Clinical improves massage and soft tissue therapy

- Sweat resistant formula makes it ideal for use before, during and after workouts, as well as rehabilitation therapy.
- Pharmaceutical grade conditioners leave skin feeling smooth, moisturized and non-greasy.
- Cutting edge polymer technology allows for a smoother, more consistent application.
- The paraben-free formula contains no dyes or fragrances.

Does not interfere with adhesion of kinesiology tape

MSM & glucosamine for joint health

Available in spray, gel & roll-on applications
